

SPOT X

2-WAY SATELLITE MESSENGER WITH
BLUETOOTH® WIRELESS TECHNOLOGY

Trakpro

SPOT X provides 2-way messaging communications beyond the reach of cellular with its full QWERTY keyboard or by pairing their smartphone via Bluetooth through the SPOT X app.

Users can check in with managers, colleagues and family, or communicate directly with 24/7 Search and Rescue services in the event of an emergency.

Managers can pinpoint the location and monitor the movement of remote employees, and with its unique mobile number can initiate messages directly to the SPOT X at any time.

KEY FEATURES:

- **BLUETOOTH** - Easily connect the SPOT X device to the SPOT X app and have satellite connectivity at your fingertips.
- **MESSAGE** - Message remote or lone employees through any cell phone number or email address from virtually anywhere in the world. It comes loaded with 14 predefined messages that can be further customized and synced to your SPOT X device.
- **TRACKING** - Set up tracking at 2½, 5, 10, 30 or 60 minute intervals to track in near real-time
- **CHECK IN** - Employees can quickly and easily check in and provide status updates.
- **COMPASS** - Built-in compass and programmable waypoints to aid the user with navigation.
